A Broadside at the "Patriots." The American of yesterday, in pursuance of its K. N. labors, devotes two columns to the extermination of Mr. Schuzz, and other obnoxious "Patriots." In this tabor of love the editor is assisted by an anonymous correspondent as Barstow, who, having nothing to say against Mr. Schuzz himself, attacks him through his friend KINKEL According to this witness, KINKEL not only deserves no credit for the part he bore in the Revolutionary struggles of 1848, but is, in fact, a swindler and a cheat. The American writer says:

Kinkel shortly after his arrival in New York American shortly after his arrival in New York put up at the Astor House; did eat, drink, and smoke cigars; had, in short, a good time, and left the bills to be paid by the German Patriots of New York, mostly merchanies; who, however, gave their contributions, not to be spent for cigare, etc., but the relief of German Refugees and for the cause at home. But Kinkel not only had good times, but took the funds placed into his hands for "the good cause of the revolu-tion" and departed for the West where he bought a farm or brewery. This is the whole story as circulated some four or five years ago in all the papers of New York and elsewhere. Where is Mr. Kinkel now? Does Mr. Schurz know anything, about all this? If so, must not no himself acknowledge that he threw pearls before a swine?

It is unnecessary to answer these unonymous libels. The reputation of Kinker is safe in the hands of his countrymen, and they will indicate it from the assaults of his Democratic calumniators. "It is instructive to remark," bowever, that when KINKEL, on his tour through the U S. to invoke aid and sympathy for the Revolutionary cause in Germany, visited Milwankee and met with such a warm welcome at the hands of his countrymen our prominent Democratic leaders and presses made everything of him. Now the time is changed and the American, their tatest and therefore most reliable organ, holds up KINKEL to general scorn and condemnation, a an impostor and swindler-nor, indeed, that it has any special grudge against Kinker, but in the vain hope of assailing, through him, his friend and compatriot, Carl Schurz. We have a strong suspicion that these persistent K. N. attacks upon Mr. Soucez and other German "patriots," will not help the waning fortunes of the Baratow bribe and ticket.

The Party "Annihilator." The Janesville Standard, the "home organ'

of "Barstow and the Balance," is greatly exercised in mind about the proposed Democratic Reform Mass Convention in this City, on the 20th inst., and thus threatens venguance upon the two gentlemen whom it holds responsible for this

Dr. Heubschman has heretofore been regarded as Democrat of a different stamp, and that he now lends himselt to the treasonable designs of Noonan not only lessons him in the estimation of his friends, but will stamp him with infamy in the opinion of the Democracy of the State hereafter.

The only result will be to damn Nooman, possible, to a deeper infamy, and annihilate Heubschman for all time to come. We rather think that both Mesers. HEURSCH-

MAN and Nooman will survive these truculent attacks of the Barstow organs, and live to see the Democratic party all the better for the purification proposed.

SER HOW IT STICKS OUT.—Night before last the fiepundicans lield a mass meeting, and last night they held another. The first was for Germans, and the last for Americaus. The first was held in Market Hall, the second in Albany. Market Hall is good onough for Germans, but Americans must have the Albany. Such is the principle upon which the so-called Republicans acted. Is not that Know Nothingism of the most proscriptive style?—American of yesterday.

This is a charming arming at K. N. simplicing SEE HOW IT STICKS OUT .- Night before last

This is a charming sample of K. N. simplicity. If our K. N. neighbor of the American will look at the Sentinel and Free Democrat of Wednesday and Thursday, he will find that both of the epublican meetings were announced to be held at Market Hall, and it was on finding that this Hall had been pro-engaged that the meeting of Thursday night was necessarily appointed to be held elsewhere. What week K. N. invention will the American try next?

WAUKESHA REPUBLICAN CANDIDATE FOR SENA WADKISHA REPUBLICAR CANDIDATE FOR SENATOR.—The Republicans of Waukesha county have nominated Dennison Worthington of Summit, as their candidate for State Senator. When we call this a most excellent nomination, we mean comething more than is usually interred from such endorsoments by party sheets. It is in all respects a most excellent nomination. Mr. Whas been a member of both houses heratofore, and earned himself a reputation for industry, intelligence, and for unfinching integrity, such as none excelled and few enjoyed.—Free Democrat, of yesterday.

We cordially endorse what the Free Democrat says of Mr. Worreingron's nomination. The Republicans of Waukesha have done themselves credit and gratified their brothren throughout the State, by this selection.

Nominations .- The Republicans of the Fox Lake Assembly District have nominated B. F.

The Democrats of the Oconto district have no-

minated Dr. J. C. HALL, ANOTHER BOLTER.-Col. Bird, Mayor of Madi-

son, an old wheelhorse of Democracy, has come out as an independent candidate for the Suite. Senate, against Mr. Proudfit, nominated by the Baratow faction.

FIRE AT COLUMBUS HOTEL BURNT. -The Ex change Hotel, the only public house at Columbus was destroyed by fire, between 4 and 5 o'clock A. M. Thursday. It was owned by Whitney & McCafferty, and leased by Mr. Graham. The fire broke out in the kitchen and the flames spread so rapidly that little could be saved. The loss is roughly estimated at \$6,000, and the insurance on the property was \$3,000, of which \$2,000 was in the Phoenix and \$1,000 in the Milwaukes City Insurance Company-both of this city. The fire is supposed to have been the work of design.

BENS. FERGUSON, of Fox Lake, has been nominated for the state Senate by the democrats of Dodge County.

Important Correction. The following communication, from the Casher of the Milwaukee Bank, corrects a grave error in the telegraphic despatches of yesterday : MILWAUSER, Oct. 9, '58. Editor of the Sentinel;

DEAR Sin-In this murning's telegraph report appears the the following paragraph: "The Sheriff to day took possession of the books and papers of the Milwaukee & Mississippi Rail Road at the suit of the President of the Milwaukee day next. Bank."

I desire to state, through the columns of your paper, that this Bank bas commmenced no suit against the Milwaukee & Mississippi road; and know nothing whatever of the transaction allu-Respectfully yours, T. R. B. ELDRIDGE, Cashier

THE CALIFORNIA STEAMERS.—The owners of the California steamers are now adding to the security of their boats by providing them with water right bulkheads each steamer being divided according to build, length, &c. The fire and cugine rooms, in all cases, are to be inclosed, and exten pumps supplied to each compartment .-The "Granada," is already constructed in this manner, and the "Illinois" is undergoing the necessary alteration.

THE PEA NUE BOROUGH AGAIN, -A train of cars on the Lake Shore R R, was thrown off the track a few nights since, by obstructions placed upon it in the vicinity of Harbor Creek, Pennsylvania. WASHINGTON, Monday, Oct. 6, 1857. No stocks were received for redumption to-day

—a fact which indicates that the demand for money is on the decrease.

The President has not fully recovered, but came to town and transacted business for three

bours to day.

The whole boyy of embryo diplomatists have dispersed with mateliarions on Gen. Casa, for postponing action until the meeting of Congress. Sinking of the Ben Coursin -More

One of the pilots of the Ben Coursin was in this city yesterday. He says that the steamboat is sunk in fourteen feet of water, and that a number of persons who were on the Lower Deck were drowned. Nine deal bodies had been found, and it was stated that four or five more were still un-der water. He says that the Ben Coursia took a sheer on the pilots, and there was not a suffici ent head of steam to control her. - Galena Ga-

Non Est Inventus. — Phillip Oatschlager, charged with committing an assault with intent to kill, whose trial has occupied the Circuit Court for the greater part of the past two days, and who was at liberty upon \$1,000 bail, failed to appear when called upon yesterday. His recognizance was consequently forfeited, and a warrant issued for his arrest, and his trial continued till monday. It is thought he may have taken " leg bail."

CIRCUIT COURT. CT. 9. BON. ARTHUR M'ARTHUR, PRESIDING.

State of Wisconsin vs. Phillip Oelschlaeger.-This case occupied the time of the Court, vestererday, and was before the Court this morning. The defendant was at liberty on bail, and being called, made no appearance. His recognisance of the defendant, and the trial continued till Mon-

State of Wisconsin vs. Michael Hayden, charged with an assault with intent to kill. Jury out deliberating upon a verdict. State of Wisconsin vs. Henry McGrane, charg-

ed with larceny in a dwelling. Verdict not John Belton was sentenced to 4 years impris-

coment in the State Prison, for having, and attempting to pass counterfeit money. Samuel S. Thornton was sentenced to 2 year imprisonment in the State Prison.

Moses Murray was sentenced to 1 year's in prisonment in the State Prison for larceny our Harbor-The Straight Cut.

We took a look, yesterday, at the condition of the works at the "Straight Out." All the cribs of the South Pier, and all but one of the North Pier, are now in their places. It only remains to fill these with stone, build up the piers to their proper level; and to dredge the channel to the required depth, to complete our Harbor Improveacuts. A very moderate sum will defray all the cost of the work yet to be done.

We have already borne witness to the faithful and substantial manner in which the Contractor, Mr. Hasbrouck, has done his work. And, in addition to our own evidence, we have cited the official opinion of Col GRAHAM, U.S. Topographcal Engineer, who has charge of this and other similar works on our lake. No better job can be ound anywhere, and, when completed, Milwankee will be able to boast of the enfest and most eccessible Harbor on our Inland Seas, But how shall it be completed? Mr. HASSROUGE

has invested all his capital in the work and taken pay in City Bonds. In ordinary times, he could raise the necessary means, upon those securities, to pay his men and keep his work moyng. But, in the present crisis, bonds are no onger available. The Mayor, indeed, aware of he importance of the "Straight Cut" to our City Commerce, has gone East, as is said, in the bope of raising money, on City securities, to complete the improvement this season. But while we wish him all success in his mission, we fear that he will fail. It does not, however, necessarily follow that the work must therefore stop .---The means to complete it, can, with moderate effore be produced here. Our Banks, our Capitalists, our Merchants, our Property-owners, our Produce Dealers and Forwarders, our Rail Road and Insusance Companies, can all do something towards this end, and all are interested in securing it. We repeat that a very moderate sum of noney will entirely complete our Harbor Improvement, and in case of the Mayor's failure to obtain the necessary means allowed, they ought

to be and we trust, will be, realized at home. A Good IDRA .- As the last meeting of the Common Council, Alderman Jennings offered a resolution, which was adopted, requiring the Gas Company to have the gas boxes on the streets in the 3d Ward put down on a level with the side walks. These "gas boxes" stick up pretty well above the side walks all over the city, particularly on Eest Water stacet, and they are a provoking nuisance, tripping up the unwary passorby, and causing anything but a pleasing sensation to the extremity of the unlucky body's foot that may come in contact with them. We call the particular attention of our City Fathers who went tight boots to this matter, if any such there be, and if there are none, who, from perconsi experience, have felt the necessity of such a provision, in the name of all stub-toe-dom, we bog they will give their attention to the subject

generally. LARGENY BY A WOMAN -- A WOMEN HAD Elizabeth McGwire entered a bouse in the Third Ward on Thursday afternoon, and took therefrom a shawl of the value of about ten dollars, and then attempted to excupe on the boat with her piljage, but was detected by policemen Bohan & Mo-Darty, and prested a few minutes before the boat left. When she discovered that the police were after her, she threw the shawl into the river, but

was seen by one of them, which confirmed his suspicions of her being the thief. She was examined yesterday before the police nagistrate, and committed in default of \$500 bail to await for trial at the next term of the Circult Court.

THE WALKER HOUSE,-This excellent hote has lately been thoroughly renovated by Messra Hasbrouck & Pearce, the present proprietors and it is now far more conveniently arranged for the accommodation of the traveller than heretofore. Everything about the house bears the appearance of neatness, and thrift and the gentlemanly landlords keep it in a manner which ought to obtain a liberal patronage. Persons visiting our city who may "put up" at the Walker, will find obliging clerks and waiters, good fare, and their con venience generally cared for.

For Passing Counterfeit Money.-John Belton, who was convicted by a jury for having, and attempt ing to pass counterfeit money in this city, was sentenced yesterday by Judge McArthur to four year's imprisonment in the State Prison. This will be rather a check to one gang of these sharp financiers, with whom there is very etrong evidence he was connected, and a warning to gentlemen of a like stripe to keep away from our city, unless they are desirous of seeping company with Belton.

EDITOR WANTED.—We will give our hat, boots and every other garment that we can decently dispense with, to any enterprising person that will return safely to our sanctum the individual who is name stands at the head of this paper.—
The last we heard from him he was in Milwaukee, where we believe he was endeavoring to exchange clear lumber for calls. Has any one seen our editor.—Green Bay Advocate.

The missing man was in our office a few days since. He had just returned from the east, and reported plenty of money thore and thereabouts.

ALARM OF FIRE .- An alarm of fire was sounded about 5 P. M. restorday. The Department turned out promptly, but could find no trace of fire. We did not learn the origin of the alarm. Some said it was a tug in the river, and others that there was a fire at Humbolt.

DET GOODS AT THE "METEOPOLITAR." - A. will be seen by their advertisement, Messrs CHANDLER & JENNINGS, to praise whose selection of goods would be a needless task, offer great inducements to purchasers, being disposed to sell at prices to suit the times. > THE NEWHALL HOUSE. - We had an invitation to attend the opening festival of the Newball House, but were prevented by illness. Last week, while in Milwankee, we took occasion to test its qualities, as well as to see its extent and the richness of its finish and furniture and our judgement is that the universal posite befored judgement is that the universal praise bestowed upon it by the members of the press who attended the festival is well morited. We think there is bardiaged. ed the destivat is wen morted. We think there is hardly a doubt that, in regard to extent, beauty of design, richness of finish and continess and convenience of furniture and internal arrangements, it excels anything of the kind west of New York.—Kilbourn City Mirror.

MACFARLAND'S THEATRE-OPEN THIS EVENING. -Mr. A. Macfarland, for several years past losee and manager of the Detroit Theatre, opens with his dramatic corps at Young's Hall, this evening. Mr. Macfarland promises to entertain our citizens with a series of dramatic performances that will be worthy of their patronage, and we don't doubt that he will 'ulfill his promise. The programme was forfeited, a warrant was issued for the arrest for this evening is a good one, and if well performed, will certainly be interesting. [Advetisement.]

A Grea Wrong.

MESSES EDITORS:—I desire to call your attention to the particulars of a scandalous outrage, committed, yesterday, in the Circute Court, upon the character of a witness in the case of the State versus Geo. Theil, by the prisoner's counsel, Mr. Doran. The case was one of larceny. The deleadant was detected in the net of taking nails from my premises, and my wife swore positively to the fact on his trial yesterday. In the face of this, and with no rebutting testimony offered, save the former good character of the detendant, he was acquitted, and my wife for her testimony, given to further the ends of justice, was over whelmed with abuse, and loaded with the most opprobrious epithets, to such a degree that it was characterized by the District Attorney as the most outrogeous assault that he had ever listened to. and that it was a disgrace to a civilized country, Is there no remedy for this? Are our wives, sisters and daughters to be treated in this manner, unprotected by the Court? A man can take care of himself, but when a lawyer (?) takes advantage of his position, to brow beat and maligu the fair fame of a respectable semale witness, should not the Court interfere to protect the witness, and rebuke the cowardly assailant? It

me that we should have a change. THOS. TURTON. MILWAUEEE, October 7th, 1857.

LATEST NEWS!

BY MAGNETIO TELEGRAPH.

HARRISBURGE, Oct. 9-3 P. M. The Senate last night passed the bill reported by the select committee with the 2d and 3d sections. Afr. Brown's bill has the 5th section—The latter limits bank dividends to 6 per cent. until the accumulation of the reserve fund is not less than 20 per cent of the capital stock; and all excess goes to the State, and the reserve fund to be invested in loans, as security for the re-

demption of notes.

This morning, in the House, the special committee of 13 reported on the act for the relief of bank debtors. It repeals the penalties for suppraision until next March. Permits the banks to discount and pay out for their own notes for sixty days after March. Provides that they must halso pay their descripts and not dealers dividents. elso pay their deposits, and not declare dividends above 5 per cent, provides that the Pittsburgh; and Philadelphia Banks must publish weekly statements, the same as at N. Mr. Randail's Reply to his Accusers. - If Mr. Randall's speech at Albany Hall on Thursday evening was not marked with any particular degree of gentleness and calmness-if he spoke out in plain English his reply to his calumniators, they have themselves to thank for it It would doubtless have been more agreeable to deal in well-rounded periods, with the general issues of the campaign, but he had first to vindicate himself-and he did it so thoroughly that if any of his accusers were present, and had any shame left, their faces must have reddened, as their backs smarted under the lash applied to

He took for his text an article published on the 7th, in the Madison Argus, the organ of the Baratow dynasty when that bad set of men were in power, and alike the organ of their lineal successors who would like to get into power. That paper, like the News of this city, has teemed nomination, furnishing materials which are copied into the Democratic papers all over the State The Argus of the 7th contained an articl nahered in by a great array of capitals, contain ing a long list of charges against Mr. Randall's private character, which he took up one by one, and hurled back upon his accusers. The first charge was as follows:

In 1841 or 43, A. W. Randall sold his Whig principles to John Tyler, and got for his pay the appointment of Post Master at Prairieville, now Wnukésha, and held tho office two or three years; when he became a defaulter to the General Government, and his surcties had the entire amount to pay.

The reply to this was a crusher. WM. A. BARsrow was the Postmaster at Waukesha, but went out of office a defaulter to the amount of \$149. Mr. RANDALL succeeded him, and out of friend ship undertook to pay the amount. Mr. Ran-DALL was poor, and borrowed money at heavy rates to pay this sum, so that the amount which he paid finally ran up to \$400. His bail, P. H. Prame and E. D. Clinton, never paid a dollar for him, and are his warm, personal friends now. Again, the Argus charges:

In 1848, Mr. Randall joined the Free Soilers, and was a candidate the following winter at Madison for United States's Senator, but sold out histotrees, influence and good-will to a brother Free Soil candidate for about \$200; and the same night exhibited the price of his political prosti-tution to a Waukesna neighbor, &c.

The plain reply to this is that it is a lie out of whole cloth, for Mr. RANDALL was not 30 years of age, and not eligible as a Senator at the time | Hatbor Improvement, the Common Schools, the mentioned.

"About 1848, Mr. Randall had a note of about eighty dollars placed in his hands, as an attorney, for collection, by Major Meacham, of East Troy. Walworth county, against a claimen of Wankesha.
Randall collected the money, and appropriated it
to his own purposes. Major Meachan came for
his pay—Randall was short; said he hadt collected it, &c.,&c."—(carrying out the charge with
a great deal of chromatantial detail.)

The reply to this brings WM, A. BARSTOW into the field again. Mr. RANDALL said, in substance : Mr. Meacham held a note against Barstow, which by of Retrenchment and Reform, as the only he sent to Randall to collect. Baratow gave Randall an order on his agent for the Prairieville Mill for the amount, and received the note. Bu the agent had no funds, and Randall, after a while, succeeded in getting a new note of Bar stow for the amount, which note, after some two years, was paid. Barstow in excuse for his detault, told Meacham that he had paid Randall the money. He alleged that the latter owed him considerable sums of money. Hearing of this, Randall insisted on an examination of accours, when it was found that Barstow owed

One more, said the veracious Argus : The records of the Waukesha Circuit Court ents for money collected for them, which he had appropriated to his own use.

The grain of truth in this lie was that Mr. Randall was sued by a New York firm, under the following circumstances: He had sold for them a stock of goods, and had a great deal of trouble in disposing of them to advantage, and charged what he thought his services were worth. The New York firm refused to allow his claim, and brought suit through Mr. McGregor, then of this city, now of Portage City. Mr. McGregor thought the claim of Mr. Raudall reasonable, and a set-

tlement was effected. Mr. Randall next met and exposed to view the felsehoods told by the Democratic papers in re-

lation to his course upon the Maine Law. The last charge of the Argus, worthy of no-

Mr. Randall has resided seventeen years in Mir. Randan has forecast sevented years in Wisconsin, and though he has no family but his wite, he has yet been so thriftless and so wasteful, that he has never accumulated any properly, and never paid a cent of taxes, except, perhaps, a poll-tax for road purposes.

This crime of being poor, is an atrocious one in the eyes of the leaders of the patent Democracy. Mr. Randall pleaded guilty to the charge tie is poor-he is no speculator-he has never resorted to perjury, or forgory, to make moneyhas never wronged the widow and orphan of their dues—has never had his hand in an open State Treasury. Bur, as one reason why, doing a snug country practice, he has never laid up money, he, with his brother, years ago, bound themseives to pay the debts of their old father, so that he might go down to the grave teeling that no creditor had lost by him; and after that father's death, they have done what they were able to support the younger children of the family. This explanation of Mr. Randall's pov erty was wrung from him by the malignity of his

enemies, and ought to silence them forever. And so-one by one,-did Mr. Randall mee and reply to the wanton, shameful charges of his accusers, who, despairing of waging a successful battle upon principle, fill their sheets with slan ders upon his personal character. His vindication was complete. But his enemies are active, and the same unscrupulous men will doubtless batch a new broad of lies by the time that the refutation of these meets the people. . We doubt no the result; and we have only to say to his accusers, as he says, that he defice their malignity; let them do their utmost.

Assaults on the City Government.
We regret most deeply that any newspaper in iterative should have assaulted the city government. frigurance about have assumed the city government. And it is regretted by everybody.—
In this crisis in the monetary matters of the country, the great interests here caunot well afford to lose the active friendship of any newspaper, and particularly of the Sentinel, to which a respectable portion of the community look, for the bases of their opinious. For one, there have been been always and are in this whose home, business, and his all, are in this city, to come out in denunciation of the city's official head, looks like madness. We hope, and the public expect, to see the Sentiner retract its standard.

danders.

But if the Sentinel does not do this, and thousand the sentine of the s chooses to drive forward a war which we did not provoke, we bid it proceed.— News of yesterday. Thank you, sir. We propose to " proceed, and if you don't like " the war," please remember that you fired the first shot. In ailuding to Mayor Cross' sudden stars for the East, the News went out of its way to attack Judge RANDALL, by contrast, for going round the State "a begging for votes," while Mayor Cross, the disinterested

for votes," while Mayor Gross, the disinterested and self-sacrificing clicial, had left the field and given up the canvass, that he might hasten to New York to borrow money for city uses. It was in reply to this uncalled-for attack upon Judge Randatt, and this excessive adulation of Mayor Gross, that the Sentinel spoke. So much for the "provocation."

As to the "alanders," we induged in none, the sentinel spoke and the money of the place of the sentinel spoke. There were a satisfied that they have a well guarded Banking haw, and that it shall be faithfully administered.

Those views are untertained or gur pusiness. As to the "slanders," we indulged in none, and therefore have none " to retract; " and our

assault upon the city government was simply a recital of facts which are but too well-known to all our tax-payers. That the article was not to the taste of the News, we can well believe. It s their ox that is gored! The News and its kindred prints have been indulging for weeks past in assaults upon the State government; it denunciations of its "official head;" in the most reckless miscencesentations in regard to the State expenditures and State taxes. The "crisis in notietary matters" did not restrain them. No consideration for "the great interests" here, availed to check their assaults. There was no 'madness" in these " denunciations." Oh! no; it was a perfectly legitimate warfare, because the State Government was in the hands of the Republicans, and a Republican its "official head. But when the Sentinel calls attention to our

city affairs; when it points to our outstanding debt, our extravagant expenditures, our increas ing burden of taxation, and cites all these as proofs of waste and mismanagement, the News protests against this "war," as detrimental to the city credit, burtful to the city interests, and libelous towards the City authorities; and rolls up its eyes in affected astonishment at the "madness which impels the Sentinel to speak of such un pleasant things. It is a bad rule that will not work both ways. If it is fair play for the News to misre present the facts as to our State debt, taxes and expenditure, it is surely lawful and right for the Sentinel to tell the truth about our city finances with calumnies upon Judge Randall since his If the "official head" of the State, who is not a candidate before the People, is a fair subject of newspaper comment, the "official head" of the city, who is a candidate for office, cannot rightfully plead exeroption. If the News has carte blanche to assail and traduce the State Government, the Sentinel may fairly claim the privilege

of criticising the conduct of our city officials. The insinuations of the News, that our article vas calculated, if not intended, to " rule our harbor," "force disaster upon our public schools," 'frighten the holders of our city bonds," and dishonor the financial character of Milwankee," are silly and idle buguears. Our harbor is in no langer, we are amppy to say, of "rule;" our "public schools" are threatened with no disaster; there s no occasion for holders of city boods to get "frightened," and nothing but wanton extravagauce and gross mismanagement can "dishopor our financial character." We murvel, indeed, that the News could be so improdent as to admit the possibility of such grave consequences from a briof newspaper article, which insisted upon the necessity of Economy and Reform to save the city from Bankruptev. It " looks like madness." The "great interests," the "important enterprises" and the " credit" of our city do not rest upon such slight and unsubstantial foundations

that they can be prostrated by a newspaper at ticle, condemning waste and extravagance in the city government, and demanding thorough re-It would be waste of words to defend the Sentinel against the imputation of hostility to the uplic interests, or the city credit. The columns of this paper for twelve years past bear eloquent witness for us on this score and suffice to answer and confound all calumniators. We think that we best discharge our duty to the city and Taxpayers of Milwankee when now that the "mone tary crisis" is upon them, and the subject naturally engages all thoughts, we hold up to their attention the past mis-management of our city alfours and urge upon them the imperious necessit

prises, promoting the public interests, and maintaining the city credit. Agricultural Statistics.

The Legislature, passed an excellent law, last winter, requiring the assessors to gather statis-ties of the agricultural products of 1856. The law has been obeyed in some of the counties of the state-how many we do not know-and has seen entirely neglected in others; and we regreto be informed that the assessors are dere liet in their duties. A full and correct table of him some \$128, which was, after a time, paid the products of this state would have been a mos gratifying exhibit of its progress, and we are orry that we are not to have such a table.

Some time ago, in alluding to a table publish ed in Cincinnatti, in which the wheat crop of Wieconein was estimated for this year at 5,000, 900 bushels, we expressed the opinion that the amount would certainly be not less than 10,000, 000 bushels. We are now satisfied that nearly double that amount will not be too large an esti mate for 1857. Thus far, we have only the folowing returns of the wheat crop of 1856;

Total in these counties 3,434,234 bus From a large number of fine agricultural coun ties we have not yet received the figures, but, taking the above as a basis, we think the crop of 1856 was not less than 12,500,000 bushels: and considering the vary large increase of our farming population since that time, and the great bundance of the crop this year, we think that 18,000,000 will not be far out of the way as our estimate for this year.

"THE HARBOR-MAYOR CROSS GONE."-AI article under this caption appeared in yesterday Sentinel, which is attributed to that pest of Siciety—Noonas!—American of yesterday.

The American sees this formidable "scare crow," in half the newspapers of the State.-These "Noonsuic" visions are as frightful to its soul as were the dreams of Richard UI., the night before the battle of Bosworth. We heard it confidently asserted by a good Cross Democrat, yesterday, that "Noonau" still controlled the columns of the American. The Bank Comptroller. The importance, at all times, to the people at large, and the business interests of this State, of having a capable, experienced and trustworthy man in the office of Comptroller, is forcibly urged in the Bisconsin of Thursday. That paper occupies an independent position in political mat-

ters and cannot, therefore, be charged with partixanship in thus expressing its strong and wellfounded preference for the Republican numinee for Bank Comptroller: Most fortunately for the people, there is a candidate in nomination who presents all these qualifications, and that man is John P. safety of our currency?

Mr. McGregor is so well known in this city for irreproachable integrity and correct business haults, that the business men of Milwankee, we would say of every town, village and city in the State, should give him a majority. Even a doubtful man in the office of Bank comproller, at the

potential for industry, ability, honesty and hates for that post, is unassailable. He is the man for the place, and we track that the People of Wiscomin will show by their Verdict in his layor, that they are satisfied that they have a well sounded Banking law, and that it shall be laith lifty administered.

> Correspondence of the Sentingly why the Grain Don't Come in.

Milton, Oct. 7, '57. MESSES, Epirone :- I notice in your daily of yesterday that as a meeting; of the Merchaute and Produce Daslers of your city, a committee was appointed to draw up a circular addressed to the country Merchants, the object of which is to obtain their aid in bringing forward more readily the grain yet in the names of the larmers I think that at least four-fifths of the wheat, and nearly all the course grain grown in this vicinity; is yet in the hands of the farmers. Unless some inducement is extended to them, greater than the present prices paid for their grain, the greator part of it will be held over for the spring market, thereby keeping the merchants out of their dues, and condering them unable to promptly meet their payments in New York and elsewhere. Neither throats, nor persuasion will in-

duce farmers to sell at present prices. One firm here, Messrs. Coloman & Davis, are offering to furnish page and forward the grain of those who are owing them, to Milwaukee, free o charge; that is giving them the use of their bags and their labor. Some are availing themselves of this opportunity. There is more wheat to be narketed here than heretelore, as a larger breadth was sown, with a fair yield and of a good quai-

There has not been half of the wheat forward ed from this station this fall, that there was last, up to this date. The amount of wheat forwarded from August

oth, to Oct. 7th, 1856, was 28,497 basheleverage price paid 85 cents per bushel. Amount

Now if this same difference exists throughout the State, it must and will seriously affect the business and business men of this State. If the ousiness men of Milwaukee can devise any means by which the farmer can realize more for los grain, and induce him to forward it, it is hoped they will do it, and do it soon, as there is but little time left this fall to operate in.

The greatest difficulty to be surmounted is to do away with the predjudice existing with the former against the grain speculator. The names of the gentlemen appointed to draw up said circular are well calculated to secure the confidence of the tarmers in the movement, as they are well known, both personally and by reputation, to most of them in the south and southwestern per tions of our State. Let them appeal to the farmer, as well as to the merchant, and success, in a messure, will attend the movement.

Respectfully yours S. P. TAINTOR. CARL SCHURZ,—This distinguished German pa riot, has been nominated by the Republicans of Visconsin for the office of Lieutenant Governor.

THE CENTRAL AMERICA.

Three More Rien Rescued after being Nine Bays on the Ocean. A THRILLING HARRATIVE OF FAMINE AND SUFFERING.

The City was startled yesterday by the apparision of three more men rescued from the Steamer Central America. They came looking almost like-skeletons, gauot, sick, exhausted. They were tound drifting in one of the steamer's like boats, some 478 miles Northeast of the sput where the Central America went down, and nine days after that and staffir the Brig Mary picked them up, on her voyage from Cardenas (Utba) to Cork, Ireland. The Mary carried them eastward 7 days when she met the Bremen Back Laura. To correspond to the Mary carried them eastward of days, when she met the Bremen Bark thurs, coming from Bremen toward New York, and transferred them to her. The Laura arrived yesterday morning with the three men. Their names are:

ALEXANDER OOTZHAUSEN, are:
J. Tice, 2d Engineer I the Gentral America.

J. Tios, 2d Eugineer of the Central Land.
ALEXANDER DAWSON, Fileman.

The story of these poor fellows is briefly this:
Mr. Tios staid by the steamer till the moment
she sank, when, with a plank that he had before

drawn down in the whirl, but, in coming to the

The American Mining Chronick, under the head of damages for loss of file by explosions, gives some views of cases a rising under the above head, and in conclusion remarks:

SINGULAR DISCOVERY IN HORICULTURE.--- I a late number of the Emporio Italiano, we find a description of the discovery of a new process by an Italian dorist in Ancia, by which it is asby an Italian Borist in Arita, by which it is asserted that delightful fragrance may be bestowed upon plants naturally 1 odorous. In order to attain this object the roots of the plants are covered with fragrant manures. Thus, with a decoction of roses, the discoverer has been enabled to give to the Rhododenaron the perfect fragrance of the rose. In order to insure a successful enault it is necessary to treat the seaks of ragaines of the rose. In other to insure a suc-cessful result it is necessary to treat the seeds of the plant to which it is desired to give fragrance. They are steeped two or, three days in the re-quired essence, then dried in the shade, and shortly afterwards are sown. If it is desired to change the natural odor of the plant 107 one more agreeable or more desirable, the strength of the essence is doubled or tripled, and a change must be made in the natural of the plant. In order to make the archical odor permanent, the plant must be sprinkled and dampened with the pant must be springful and dampeled with the several days in the spring for two of three years. And thus, also, it is said the gardener may, at his pleasure, cause different plants or trees to share their odors with each other, by coring through the stalk, or trunk, or root, in opening into which to pour the fragrant ingreal-
